

Location

Just 65 km east Jakarta, about one hour drive, directly connected from Jakarta – Cikampek toll road, excellent access to Jakarta and Bandung.

Kota Bukit Indah Industrial City with its leased factories is an ideal place for you to start up your manufacturing activities in Indonesia.

Complete infrastructures

Power plant, water treatment plant, waste water treatment plant, 24 hour estate management : secure, safe, clean and well maintained.

Complete facilities

Bank, clinic, international hotels, local & international restaurants, housing estate, dormitory, school, mini market, container yard, warehousing, custom and excise office, and many more.

The leased factory and Industrial land

KBI provides rental factory building starting from 1000 square meter, in a nice and friendly environment. Low investment, low risk, immediate start up.

We can discuss the possibility of renting customized factories or selling industrial land according to your specific requirements.

One stop service

Management of Kota Bukit Indah will provide assistance for necessary permits and licenses, such as : investment permit, master list, expatriate working permit, building permit, recruitment services, etc. Leave all the local hassle to us.

Community Development

KBI encourage good community development between investors and its new neighborhoods. Also among the investors themselves, in all managerial level. Including with the local government to create more conducive business environment.
